

MARE NOSTRUM

QUINTESSENTIAL LUXURY

THE BEST THING ABOUT A VACATION  
IS GETTING AWAY FROM EVERYTHING ELSE...

A large, dark-hulled wooden sailing ship with multiple masts and rigging is shown from a side-on perspective, moving across a body of water. The ship's name, "MARE NOSTRUM", is visible on the hull. The background shows a hazy coastline with hills under a cloudy sky.

# A B O U T

Establishing his roots in 1983, Mr. Kadir Turhan constructed his first gulet at 16 meters length with dreams of starting his career hosting Blue Cruise yachting.

With growing interest and success, there began a constant renewal of gulets until today totaling 9 with the latest addition being the famous Mare Nostrum built in 2008. This gulet is considered to be one of the top charter gulets in Turkiye.

Run by family members and holding the flag high as a successor, son Galip Turhan has taken over the role. Throughout the years, the company's success has mainly been derived from valuable guest expectations rather than any personal gains.

# CABINS

A high-quality photograph of a yacht cabin interior. The room features extensive dark wood paneling on the walls and ceiling, with recessed lighting. A large, curved bed with a white mattress and a light-colored throw blanket is the central focus. The bed has several pillows, including two with blue and white stripes. To the right of the bed is a wooden nightstand with drawers and a lamp. In the foreground, a portion of a wooden desk and a grey upholstered stool are visible. On the left, an arched doorway leads to another part of the yacht. The overall atmosphere is one of luxury and comfort.

*But not if you come back again*

EXPERIENCE

EXPERIENCE

An aerial photograph of a two-masted wooden sailboat sailing on deep blue water. The boat is moving from the bottom center towards the middle of the frame, leaving a white wake. The water transitions from a deep blue to a vibrant turquoise near several small, rocky islands. These islands are covered in sparse green vegetation and have jagged, light-colored rock formations. The background shows more distant, hilly islands under a clear sky.
